

“CLEVELAND IEEE FAMILY FUN DAY AT GREAT LAKES SCIENCE CENTER”

Date & Time:

August 5, 2017
10am to 5pm

Location:

Great Lakes Science Center
601 Erieside Avenue
Cleveland OH

Agenda:

10 to 11: Museum opens, registration.
11 to 12: GLSC's Big Science Show: "It's Electric"
12 to 1: Pizza buffet
5pm: Science Center closes.

Who Is Invited?

IEEE Cleveland Section members and their immediate family
\$15/adult
\$8/ youth ages 2 to 12

CPD

None, but lots of bonding time with your family!

Space is limited

To reserve your seat please RSVP by August 2, 2017 at - <http://www.clevelandieee.org/events/family-day-2017>

(The following description is so full of engineering related puns, it (seconds⁻¹; 4 across). Fill it in at your own risk)

Bring the family and show them the (stable energy, 9 down) of science in (moving charge, 13 across) applications. This will be a (type of charge, 9 across) experience for all, and includes the Science Center (moving current, 14 down) “It’s Electric” show. There will be no (reduces current, 17 across) for lunch, a pizza buffet that will please young and old alike. The Science Center is a (terminal of FET, 16 down) of many interactive (visual user interfaces, 11 across) that will not (another terminal of FET, 3 down) your wallet but (enhance, 7 across) your career experience to your family. You will (increase, 18 across) their respect because you act as a (terminal of BJT, 10 across) and (process signals, 8 down) of (non-random signals, 12 down) and an (another terminal of BJT, 8 down) of knowledge. So leave the personal (semi-conductor parts, 15 across) at home, and (electromechanical energy converter, 1 down) on down to the Science Center for a (What’s a Watt?, 5 across)-ful day.

The only (battery terminal, 2 down), we were not able to arrange for pre-paid parking.
