
Cleveland International Auto Show Meeting

Developing the 2020 Jeep Gladiator

Monday, February 24th, 2020

Jeep®

1 I-X Center Dr. Cleveland, OH 44135 – Grand Ballroom East Entrance

Join SAE Cleveland, Cleveland IEEE, and engineers from Jeep in the Grand Ballroom at the IX Center for a behind the scenes look at what it took to develop the all new Gladiator truck, 2020 North American International Truck of the Year. More than just a Wrangler with a bed, the Gladiator was developed from the ground up to lead its segment in towing and hauling while maintaining the off-road capabilities Jeeps are known for. Not only can the new Gladiator haul up to 1650lbs or tow up to 7500lbs, it also has the distinction of being the only truck that has removable doors and top and a fold-down windshield.

Parking, a catered dinner, the presentation and a ticket to the Auto Show, which can be used Monday night or any day following, are included with your registration

SCHEDULE

| | |
|------------------|--|
| 5:30 - 6:00 p.m. | Registration |
